

ENCLOSURE - NO 152045101
April, 1985

**YOUR CHILD
DESERVES THE BEST**

VOTE A-10

JAMES LETTERLOUGH

On April 2nd you will choose three members to the Board of Education. Some people would like to give you three persons that represent their interest and not the children of the district. Last year you followed their lead they won, the children lost. We have spent a year in court trying to break contracts. We are still in court. We have been paying two superintendents. We may be still paying two superintendents. We must get egos and political ambitions out of the board of Education. We must spend our funds to provide the best education. We cannot offer minimum and expect minimum. We must offer maximum and expect maximum. We should get at least minimum. We must look to the future not to the past. It is time to stop testing theories and use proven methods. We must make a decision to educate or debate. We must give our children a solid foundation. We cannot hope to do in four years what should have taken twelve. We have to review our curriculum and make changes that will allow students to challenge the areas of their interest. We must implement disciplinary programs that minimize school disruption. We cannot continue to spend millions on capital improvements only to watch our assets disappear because we have no preventative maintenance program. Students and teachers deserve a place to work conducive to education. You get what you pay for. We should demand the best teachers, but we should be willing to pay. Teachers and administrators should feel secure in their positions. This will allow them to concentrate on their assigned duties and not on their employment status.

We must have a clean but effective security force free from unnecessary interference. This will allow students and teachers to concentrate on their duties and not their safety.

You need James A. Letterlough to bring stability and responsibility to the Board of Education.

**NEWARK BOARD OF EDUCATION
ELECTIONS WILL BE HELD
APRIL 2, 1985**
